JAKUB FOLTA
Front End / Web Developer

London | C: 07926604993 jakubfolta@yahoo.co.uk
https://github.com/jakubfolta | https://www.linkedin.com/in/jakubfolta

Enthusiastic and passionate self-taught programmer with deep interest in building visually enriched web experiences and focused at minimalism in code.
My goal is to become experienced Senior developer, utilize my technical knowledge and contribute to multiple projects.

EXPERIENCE / ACCOMPLISHED PROJECTS

- **Burger Builder -** A React app (Router, Redux, Hooks, Authentication) for building burger, sending order to firebase and fetching data to display it on a different route. Project created while going through online course. Check here.
- **Show me the recipe** - The recipe library where you can search for specific dish (API call), add ingredients to shopping list and add whole recipe to favorites (local storage for "favorites" implemented). Application written in MVC architecture pattern. Check here.
- **Show me the budget** - Budget app where you can add your incomes, expenses for given month and available budget with percentages will be displayed on the screen. Local storage and API call to change quote every day implemented. Application written with DRY principle and basics of OOP (IIFE). Check here.
- **Better Life webpage** - Webpage for personal development company. No flexbox and css grid. Fully responsive, Sass (7-1 architecture). Check here.
- **Yatsu webpage** - Interface for all-in-one booking app. Flexbox, Sass(7-1 architecture), fully responsive. Check here.
- **Pig game | Temperature converter | Bootcamp webpage projects** - My first projects.

COURSES / CERTIFICATIONS
